

AMENDMENT UNDER 37 C.F.R. §1.116
U.S. Appln. No. 10/554,914

AMENDMENTS TO THE SPECIFICATION

Please add the following new Abstract of the Disclosure:

A first marking and a second marking, indicating a connection form, are provided on a covering sheath at a connection position of a first wire serving as a main wire. Therefore, an operation is carried out at a region between the first marking and the second marking of the first wire according to an operation form indicated by the second marking. Therefore, the predetermined form of operation can be carried out at the predetermined position of the first wire.
